Projectors

P5 Series

This series of professional projectors delivers advanced visuals, complete control, and brilliant color all with earth-caring functionality. With DLP® 3D-ready functionality, you can deliver impressive high-definition 3D presentations. Powerful color technology preserves and enhances visuals' true color. Special software enables seamless control via a LAN or Wi-Fi®1 connection. Finally, energy-efficient functions help cut costs and save the environment.

Advanced 3D visuals

These projectors are DLP® 3D-ready, so you can enhance presentations or lessons with engaging 3D content. The high-resolution display presents smooth, clear image details and excellent text readability. And, exceptional brightness and contrast ratio means the onscreen darks and whites are vivid even in venues with a lot of light.

Complete control

Crestron® network control lets you conveniently set up and connect your projector from any PC over LAN or Wi-Fi®1. Capabilities include scheduled remote power on/off, remote projection control with source selection, an email alert system, multiple-projector control, and online dialog with the administrator.

Brilliant color

Acer ColorBoost II+ technology delivers vivid and natural colors, while Acer ColorSafe II technology1 prevents color decay to preserve the integrity of images even after prolonged use of the projector.

Earth-caring functionality

Acer EcoProjection technology cuts power in standby mode from 5 W to 1 W to conserve energy. Other eco-conscious technologies include long lamp life, a power-saving mode, and automatic shutdown after a pre-set period without signal input.

P5271

1024 x 768 XGA resolution, 1080p support with HDCP, DLP® 3D ready, 3700:1 contrast ratio, 3100 Lumens brightness, DVI, HDMI™ and VGA inputs, built-in speaker, Acer ColorBoost II+, Acer EcoProjection.
